Version 1.01

TEKINJECT AC ACCELERATOR

09-01-2024

Identification of the substance/mixture and of the company/undertaking

Product identifier Product name: Type of product :

TEKINJECT AC ACCELERATOR

Mixture

Relevant identified uses of the substance or mixture and uses advised against Identified uses: Only for professional use.

Details of the supplier of the safety data sheet

TEKINJECT BV Company: Kruisblok 6 **BE - 2320 HOOGSTRATEN** E-mail address: info@tekinject.com

Emergency telephone number

24-hours emergency number: +32 494 239 441

National poison information service: This is a generic EU Safety Data Sheet. Consult your Specific member state version for this information.

Hazard Identification

Classification according to Regulation (EC) No 1272/2008

Not classified.

Label elements

- Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation.
- Hazard pictograms
- None · Hazard statements
- None.
- **Precautionary statements**
- None. **Additional information**
- None.
- · Other hazards
- **Results of PBT and vPvB assessment**
- **PBT:** Not applicable
- **vPvB:** Not applicable

(EC) No 1907/2006/EC article 31

Version 1.01

TEKINJECT AC ACCELERATOR

09-01-2024

3. <u>Composition/information on ingredients</u>

Description: mixture of substances with nonhazardous additions.

| Dangerous components : | | | |
|------------------------|-------------------|-------------------------------------------------------------------------------------|-----------|
| CAS-No : 111-46-6 | Diethylene glycol | Acute Tox. 4, H302 | < 20 % |
| CAS-No : 111-42-2 | Diethanolamine | Acute Tox. 4, H302; Skin Irrit. 2, H315; EYE DAM. 1, H318; STOT RE2, H373; | < 29,9 % |
| | Water | | 35 - 70 % |

Additional information: For the wording of the listed hazard phrases refer to section 16.

4. First aid measures

- Description of first aid measures.
- General information: Symptoms of poisoning may even occur after several hours; therefor medical observation for at least 48 hours after the accident is required.
- After inhalation: Supply fresh air. No hazards which require first aid measures.
- After Skin cotact: Wash off with soap and plenty of water. Get medical attention if irritation develops and persist.
- After eye contact: Rinse opened eye for several minutes under running water, then consult a doctor.
- After swallowing: Do not induce vomiting unless directed to do so by medical personnel. Get medical attention immediately if symptoms occur.

5. Fire-fighting measures

- Extinguishing media.
- Suitable extinguishing agents: Foam, Carbon dioxide (CO2), dry powder or water spray.
- Special hazards arising from the substance or mixture: Carbon oxides (Cox), Nitrogen oxides (NOx), hydrogen cyanide (hydrocyanic acid) may be produced in the event of combustion in an oxygen deficient atmosphere.
- Advise for firefighters: No relevant information available.
- **Protective equipment:** Self-contained breathing device.

TEKINJECT Safety Data Sheet

(EC) No 1907/2006/EC article 31

Version 1.01

TEKINJECT AC ACCELERATOR

09-01-2024

6. Accidential releases measures

- Personal precautions, protective equipment and emergency procedures: Avoid contact with skin and eyes.
- Environmental precautions: Do not allow to enter sewers/surface or ground water.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binder, universal binder, sawdust). Use neutralizing agent. Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
- References to other sections
 See section 7 for information and safe handling.
 See section 8 for information on personal protection equipment.
 See section 13 for disposal information.

7. Handling and storage

- **Precautions for safe handling:** ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
- **Information about fire- and explosion protection:** No special measures required.
- Conditions for safe storage, including any incompatibilities.
- **Storage:** No special requirements
- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.
- Specific end use(s): No further relevant information available.

(EC) No 1907/2006/EC article 31

Version 1.01

TEKINJECT AC ACCELERATOR

09-01-2024

8. <u>Exposure control/personal protection</u>

Additional information about design of technical facilities: No further data; see section 7.

• Control parameters

| Ingredients with limit values that require monitoring at the workplace | | | |
|------------------------------------------------------------------------|----------------------------------|--|--|
| Diethylene glycol | | | |
| Workers | Skin contact: 106 mg/kg/day | | |
| | Inhalation: 60 mg/m ³ | | |
| Consumers | Skin contact: 53 mg/kg/day | | |
| | Inhalation: 12 mg/m ³ | | |
| Diethanloamine | | | |
| Workers | Skin contact : 0,13 mg/kg/day | | |
| | Inhalation: 1 mg/m ³ | | |
| Consumer | Ingestion: 0,06 mg/kg/day | | |
| | Skin contact : 0,07 mg/kg/day | | |
| Inhalation: 0,25 mg/m ³ | | | |

- Additional information: The lists valid during the making were used as basis.
- Exposure controls
- Personal protective equipment.
- General protective and hygienic measures: Keep away from foodstuffs, beverages, and feed. Immediately remove all soiled and contaminated clothing. Wash hands before break and at the end of the work.
 - Avoid contact with eyes and skin.
- Respiratory protection:
- Not required; except in case of aerosol formation.
- Protection of hands:

The glove material must be impermeable and resistant to the product/the substances/the preparation. Due to missing tests no recommendation to the glove material can be given.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefor to be checked prior to the application.

Penetration time of glove material:

The exact break through time must be found out by the manufacturer of the protective gloves and must be observed.

• Eye protection:

Tightly sealed goggles.

Physical and technical properties 9.

| Information on basic physical and chemical pro | perties |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| General information | |
| · Appearance: | |
| Form | Liquid. |
| Colour | Clear to slightly yellow. |
| Odour | Characteristic. |
| · pH-value: | 7 - 11 |
| · Change in condition | |
| Melting point/freezing point: | < 0 °C |
| Initial boiling point and boiling range: | > 100 °C |
| · Flash point : | Does not flash |
| Flammability (solid,gas): | Not applicable. |
| Decomposition temperature: | Not determined. |
| Auto-ignition temperature: | Product is not selfigniting. |
| • Explosive properties: | Product does not present an explosion hazard. |
| Explosion limits : | |
| Lower: | No data available |
| Upper: | No data available. |
| • Vapour pressure at 20 °C: | Not determined |
| • Density at 20 °C: | $1,00 - 1,20 \text{ g/cm}^3$. |
| Relative density: | |
| | Not determinded. |
| Vapour density: | Not determinded. Not determined. |
| | Not determined. Same as water. |
| · Vapour density : | Not determined. |
| Vapour density : Evaporation rate: | Not determined. Same as water. |
| Vapour density : Evaporation rate: Solubility in/miscibility with water: | Not determined. Same as water. Not miscible or difficult to mix. |
| Vapour density : Evaporation rate: Solubility in/miscibility with water: Partition coefficient: n-octanol/water: | Not determined. Same as water. Not miscible or difficult to mix. |
| Vapour density : Evaporation rate: Solubility in/miscibility with water: Partition coefficient: n-octanol/water: Viscosity: | Not determined. Same as water. Not miscible or difficult to mix. Not determined. |
| Vapour density : Evaporation rate: Solubility in/miscibility with water: Partition coefficient: n-octanol/water: Viscosity: Dynamic at 20 °C: | Not determined. Same as water. Not miscible or difficult to mix. Not determined. No data available. |
| Vapour density : Evaporation rate: Solubility in/miscibility with water: Partition coefficient: n-octanol/water: Viscosity: Dynamic at 20 °C: Kinematic: Solvent content: Organic solvent: | Not determined. Same as water. Not miscible or difficult to mix. Not determined. No data available. |
| Vapour density : Evaporation rate: Solubility in/miscibility with water: Partition coefficient: n-octanol/water: Viscosity: Dynamic at 20 °C: Kinematic: Solvent content: | Not determined. Same as water. Not miscible or difficult to mix. Not determined. No data available. Not determined. |

10. Stability and reactivity

- Reactivity: Stable at normal conditions.
- **Chemical stability:**
- Thermal decomposition/conditions to be avoided: No decomposition if used according to specification.
- Possibility of hazardous reactions: No dangerous reactions known. .
- Conditions to avoid: No further relevant information available. .
- Incompatible materials: Incompatible with strong acids and oxidizing agents.

Version 1.01

Safety Data Sheet

(EC) No 1907/2006/EC article 31

TEKINJECT AC ACCELERATOR

11. Toxicological information

Information on toxicological effects

| Acute toxicity : Harmfull if swallow | red | |
|--------------------------------------|-----------|----------------------|
| LD/LC50 values relevant for clas | sication: | |
| Diethylene glycol | | |
| Oral | LD50 | 25244 mg/kg (Rat) |
| Dermal | LD50 | 13300 mg/kg (rabbit) |
| Diethanolamine | | |
| Oral | LD50 | 1600 mg/kg (Rat) |
| Dermal | LD50 | 12200 mg/kg (rabbit) |

- Primary irritant effect:
- Skin corrosion/irritation:
- Not irritant.
- Serious eye damage/irritation:
- Slight irritant.
- **Respiratory or skin sensitization:** Not sensitizing.
- CMR effect (carcinogenity, mutagenicity and toxicity for reproductions):
- Germ cell mutagenicity: based on available data, the classification criteria are not met.
- Carcinogenicity: based on the available data the classification criteria are not met.
- Reproductivity toxicity: based on available data, the classification criteria are not met.
- STOT-single exposure: based on available data, the classification criteria are not met.
- **STOT-repeated exposure:** based on available data the classification criteria are not met.
- Aspiration hazard: based on available data, the classification criteria are not met.

12. Ecological information

Toxicity

| • Aquatic toxicity | y: |
|--------------------|-----------------------|
| As supplied | |
| LC50/96 h | >100 mg/l (zebrafish) |
| EC50/48 h | >100 mg/l (daphnia) |
| IC50/72 h | >1,640 mg/l (algae) |
| | |

• Aquatic toxicity: No further relevant information available.

• **Persistence and degradability:** No further relevant information available.

- Behaviour in environmental systems: No further relevant information available.
- Bioaccumulative potential: No further relevant information available.
- **Mobility in soil:** No further relevant information available.
- **Ecotoxical effects:** No further relevant information available.
- · Remarks: none

• Additional ecological information: No further relevant information available.

- General notes: Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities to reach ground water, water source or sewage system.
 - **Results of PBT and vPvB assessments:**
 - **PBT:** not applicable.
 - **vPvB:** not applicable.
 - Other adverse effects: No further relevant information available.

2. Hazard Identification

Classification according to Regulation (EC) No 1272/2008

GHS03 Oxidizing

Ox. Sol. 3 H272 May intensify fire; oxidiser

GHS08 health hazard

| Acute Tox. 4 | H302 Harmfull if swallowed. |
|---------------|-------------------------------------------------------------------------|
| Skin Irrit. 2 | H315 Causes skin irritation. |
| STOT SE2 | H335 May cause damage to organs through prolonged or repeated exposure. |

(EC) No 1907/2006/EC article 31 **TEKINJECT AC NPS**

Version 1.01

GHS07

| Acute tox. 4 | H332 Harmful if swallowed. |
|--------------|-------------------------------------------|
| Eye Irrit. 2 | H319 Causes serious eye irritation. |
| Skin Sens. 1 | H317 May cause an allergic skin reaction. |
| STOT SE 3 | H335 May cause respiratory irritation. |

<u>Label element</u>s

· Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the CLP regulation.

· Signal word: Danger

- Hazard-determination components of labeling:
- Sodium persulphate

Hazard statements:

- H272 May intensify fire; oxidizer.
- H302 Harmful if swallowed.
- H315 Causes skin irritation
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- H335 May cause respiratory irritation.

Version 1.01

T TEKINJECT

10-01-2024

Precautionary statements:

P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

P220 Keep/store away from combustible materials.

P221 Take any precaution to avoid mixing with combustibles.

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P264 Wash face, hands and any exposed skin thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P285 In case of inadequate ventilation wear respiratory protection.

P301 + P312 IF SWALLOWED: call a POISON CENTER or doctor/physician if you feel unwell.

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.

P304 + P341 IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest position comfortable for breathing.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P332 + P313 if skin irritation occurs: get medical advice/attention.

P337 + P313 if eye irritation persists: Get medical advice/attention.

P342 + P311 if experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

Additional information:

- · Other hazards
- · Results of PBT and vPvB assessment:
- **PBT:** Not applicable
- **vPvB:** Not applicable

3. <u>Composition/information on ingredients</u>

Description: mixture of substances with nonhazardous additions.

| Dangerous components : | | | | |
|-------------------------------------|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|--|
| Dangerous componer CAS 7775-27-1 | n ts : Sodium persulphate | Ox. Sol. 2, H272 Ox. Sol. 2, H272 Acute Tox. 4 ; H302, Skin Irrit. 2, H315; STOR SE2, H335 Acute tox. 4, H332 ; Skin Irritant 2, H319 ; Skin Sens. L H317 ; STOT SE2 | 100 % | |
| | | 1, H317; STOT SE3, H335 | | |

Additional information: For the wording of the listed hazard phrases refer to section 16.

(EC) No 1907/2006/EC article 31 TEKINJECT AC NPS

Version 1.01

4. <u>First aid measures</u>

TEKINJECT

- Description of first aid measures.
- General information: Symptoms of poisoning may even occur after several hours; therefor medical observation for at least 48 hours after the accident.
- After inhalation: Supply fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a doctor.
- After skin contact: Wash off immediately with soap and plenty of water while removing all
- contaminated clothes and shoes. Get medical attention immediately if irritation develops and persists. • After eye contact: immediately flush with plenty of water. After initial flushing, remove any contact
- lenses and continue flushing for at least 15 minutes. Get prompt medical attention.
- After swallowing: Rinse mouth with water. Drink plenty of water. Get medical attention immediately.

5. Fire-fighting measures

- Extinguishing media.
- Suitable extinguishing agents: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
- **Special hazards arising from the substance or mixture:** Thermal decomposition may produce: nitrogen oxides (NOx), carbon oxides (Cox), sulfur oxides (Sox)
- Advise for firefighters: No relevant information available.
- **Protective equipment:** No special measures required.

6. Accidential releases measures

- **Personal precautions, protective equipment and emergency procedures:** Do not breatch dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.
- **Environmental precautions:** Do not allow to enter sewers/surface or ground water.
- Methods and material for containment and cleaning up: Sweep up and shovel into suitable containers for disposal. Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
- References to other sections
 See section 7 for information and safe handling.
 See section 8 for information on personal protection equipment.
 See section 13 for disposal information.

7. Handling and storage

- **Precautions for safe handling:** ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. Keep away from direct sunlight.
- **Information about fire- and explosion protection:** No special measures required.
- Conditions for safe storage, including any incompatibilities.
- Storage: No special requirements
- Requirements to be met by storerooms and receptacles: No special requirements.
- **Information about storage in one common storage facility:** Not required.
- **Further information about storage conditions:** Keep container tightly sealed.
- **Specific end use(s):** No further relevant information available.

(EC) No 1907/2006/EC article 31 TEKINJECT AC NPS

Version 1.01

8. Exposure control/personal protection

- Additional information about design of technical facilities: No further data; see section 7.
- · Control parameters

TEKINJECT

- Additional information: The lists valid during the making were used as basis.
- Exposure controls
- Personal protective equipment.
- General protective and hygienic measures:
 Keep away from foodstuffs, beverages, and feed.
 Immediately remove all soiled and contaminatd clothing.
 Wash hands before break and at the end of the work.
 Avoid contact with eyes and skin.
- Respiratory protection:
 In case of brief exposure or low pollution, use respiratory filter device. In case of intensive or longer exposure, use self-contained respiratory protection device.
 - **Protection of hands:**

Protective gloves

The glove material must be complying with EN 374.

Eye protection:

11. Toxicological information

Version 1.01

- Information on toxicological effects
- Acute toxicity : Harmfull if swallowed

| LD/LC50 values relevant for classication: | | |
|-------------------------------------------|--|--|
| 7775-27-1 Sodium persulphate | | |
| Oral LD50 895 - 920 mg/kg (rat) | | |

- Primary irritant effect:
- Skin corrosion/irritation :
- Repeated or prolonged contact causes sensitization, asthma and eczemas. May cause sensitization by inhalation and skin contact.
- Serious eye damage/irritation:
- Irritating to eyes.
- Respiratory or skin sensitization:
- Repeated or prolonged contact causes sensitization, asthma symptoms. May cause sensitization by inhalation.
- CMR effect (carcinogenity, mutagenicity and toxicity for reproductions):
- Germ cell mutagenicity: based on available data, the classification criteria are not met.
- Carcinogenicity: No data available.
- **Reproductivity toxicity:** based on available data, the classification criteria are not met.
- STOT-single exposure: Irritating to respiratory tract.
- STOT-repeated exposure: No known effects.
- Aspiration hazard: based on available data, the classification criteria are not met.

12. Ecological information

Toxicity

| Aquatic toxicity | |
|------------------|--------------------------------|
| 7775-27-1 Sodiur | n persulphate |
| LC50/96 h | 163 mg/l (Oncorhynchus mykiss) |
| EC50/48 h | 133 mg/l (daphnia magna) |
| | |

Persistence and degradability: No further relevant information available.

- Behaviour in environmental systems: No further relevant information available.
- Bioaccumulative potential: No further relevant information available.
- **Mobility in soil:** No further relevant information available.
- **Ecotoxical effects:** No further relevant information available.
- Additional ecological information: No further relevant information available.

Do not allow undiluted product or large quantities of it to reach ground water, water source or sewage system.

Results of PBT and vPvB assessments:

PBT: not applicable.

vPvB: not applicable.

Other adverse effects: No further relevant information available.

(EC) No 1907/2006/EC article 31 **TEKINJECT AC NPS**

Version 1.01

15. Regulatory information

TEKINJECT

Safety, health and environmental regulations: legislation specific for the product. Directive 2012/18/EU Named dangerous substances – ANNEX 1: None of the ingredients is listed. REGULATION (EC) No 1907/2006 ANNEX XVII: Conditions of restriction: 3 DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment – Annex II None of the ingredients is listed. Chemical safety assessment: A chemical Safety Assessment has not been carried out.

16. Additional information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases referred to under sections 2 and 3:

H272 May intensify fire ; oxidizer.

H302 Harmful if swallowed.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H335 May cause respiratory irritation.

Abbreviations and acronyms:

ADR: European agreement concerning the International Carriage of Dangerous Goods by road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and labelling of chemicals.

EINECS: European Inventory of Notified Chemical Substances

CAS: Chemical Abstracts Service (division of the Ameriacan Chemical Society)

VOC : Volatile Organic Compounds (USA, EU)

LC50 : Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

PBT: Persitent, Bioaccummulative and Toxic

vPvB: very Persitent and very Bioacummulative

Acute Tox. 4: Acute toxicity - inhalation - Category 4.

Eye Irrit. 2 : Serious eye damage/eye irritation – Category 2.

Ox. Sol. 3: oxidizing solid category 3

Resp. Sens. 1: Respiratory sensititasion – Category 1.

Skin Irrit. 2 : Skin corrosion/irritation category 2.

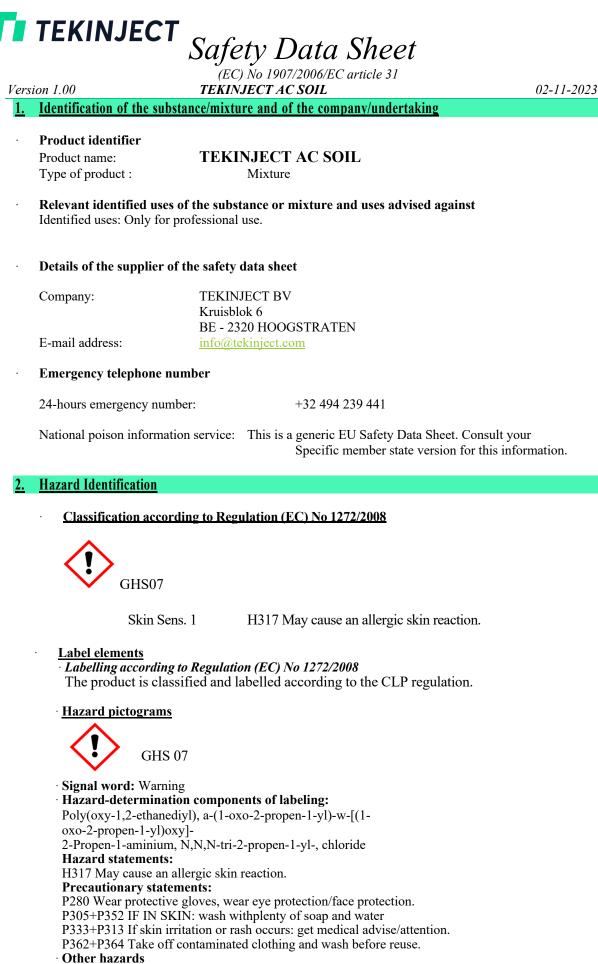

Skin Sens. 1: Skin sensititatsion – Category 1.

STOT SE2: Expected to be toxic (single exposure) – Category 2.

STOT SE3 : Specific target organ toxicity (sngle exposure) – Category 3.

Data compared to the previous version altered.

10-01-2024

- · Results of PBT and vPvB assessment:
- **PBT:** Not applicable
- **vPvB:** Not applicable

(EC) No 1907/2006/EC article 31 **TEKINJECT AC SOIL**

Version 1.00

02-11-2023

3. <u>Composition/information on ingredients</u>

Description: mixture of substances with nonhazardous additions.

| Dangerous component | nts : | | |
|---------------------------------------|---------------------------------------------------------------------------------------------|-----------------------------------------------|-------|
| CAS : 72275-82-2 EC-no : 247-118-0 | Poly(oxy-1,2- ethanediyl), a-(1-oxo-2- propen-1-yl)-w-((1-oxo- 2-propen-1-yl)oxyl) | Skin sense. 1B, H317; Eye Irrit. 2, H319 | <10 % |
| EC-no : 452-170-4 | 2-propen-1-aminium, N,N,N-tri-2-propen-1- yl, chloride | Skin sense. 1B, H317; Aquatic chronic 2, H411 | <1 % |

Additional information: For the wording of the listed hazard phrases refer to section 16.

4. First aid measures

- Description of first aid measures.
- General information: Immediately remove any clothing by the product.
- After inhalation: Supply fresh air and to be sure call for a doctor. In case of unconsciousness place the patient in stable side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly. If skin irritation continuous, consult a doctor.
- After eye contact: Rinse opened eye for several minutes under running water, then consult a doctor.
- After swallowing: Rinse mouth with water. Do NOT induce vomiting. Get medical attention.
- Most important symptoms and effects, both acute and delayed: No further relevant information available.
- Indication of any immediate medical attention and special treatment needed: No further relevant information available.

5. Fire-fighting measures

- Extinguishing media.
- Suitable extinguishing agents: use water spray, alcohol-resistant foam, dry chemical or carbon dioxide..
- **Special hazards arising from the substance or mixture:** Thermal decomposition may produce nitrogen oxides (NOx), carbon oxides (Cox). Hydrogen cyanide (hydrocyanic acid) may be produced in the event of combustion in an oxygen deficient atmosphere.
- Advise for firefighters.
- **Protective equipment:** Wear full protective clothing and self-contained respiratory protective device.

6. Accidential releases measures

- **Personal precautions, protective equipment and emergency procedures:** Avoid contact with the skin and eyes. Avoid breathing vapor or mist.
- **Protective equipment:** Wear adequate personal protective equipment (See section 8)
- **Emergency procedure:** Keep people away from and upwind of spill/leak.
- **Environmental precautions:** Do not allow contact with soil, surface or ground water.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binder, universal binder, sawdust). Use neutralizing agent. Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
- References to other sections
 - See section 7 for information and safe handling.
 - See section 8 for information on personal protection equipment.
 - See section 13 for disposal information.

(EC) No 1907/2006/EC article 31 **TEKINJECT AC SOIL**

Version 1.00

7. Handling and storage

TEKINJECT

- **Precautions for safe handling:** ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. Avoid contact with skin, eyes and clothing.
- Information about fire- and explosion protection: Keep respiratory protective device available.
- Conditions for safe storage, including any incompatibilities.
- **Storage:** Keep in a dry, cool and well-ventilated place. Incompatible with oxidizing agents. Incompatible with strong acids and bases.
- **Requirements to be met by storerooms and receptacles:** No special requirements.
- Information about storage in one common storage facility: Not required.
- **Further information about storage conditions:** Keep container tightly sealed. Store in a well-ventilated area.
- **Specific end use(s):** No further relevant information available.

8. Exposure control/personal protection

Additional information about design of technical facilities: No further data; see section 7.

• Control parameters

- Ingredients with limit values that require monitoring at the workplace:
- 2-Propen-1-aminium, N,N,N-tri-2-propen-1-yl-,chloride

| - F , , , , , , - F -1 | |
|--------------------------------------|-----------------------------------------------|
| Workers long term system effects | |
| Inhallation | $39,2 \text{ mg/m}^3$ |
| Skin contact | 5,6 mg/kg bw/day |
| PNEC | |
| Freshwater | 0,01 lg/l |
| Intermittent release | 0,096 mg/l |
| Marine water | 0,001 mg/l |
| Sewage treatment plant | 78,4 mg/l |
| Sediment (freshwater) | 1 mg/kg |
| Sediment (marine water) | 0,1 mg/kg |
| Soil | 5 mg/kg |
| Oral (secondary poisoning) | The product is not expected to bioaccummulate |
| | |

- Additional information: The lists valid during the making were used as basis.
- Exposure controls
- Personal protective equipment.
- General protective and hygienic measures:

Keep away from foodstuffs, beverages, and feed.

Wash hands before break and at the end of the work.

- Avoid contact with eyes and skin.
- **Respiratory protection:**
 - In case of vapor formation use respirator with organic filter.
- Protection of hands:

The glove material must be impermeable and resistant to the product/the substances/the preparation. Due to missing tests no recommendation to the glove material can be given. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefor to be checked prior to the application.

Penetration time of glove material:

The exact break through time must be found out by the manufacturer of the protective gloves and must be observed.

(EC) No 1907/2006/EC article 31 TEKINJECT AC SOIL

Version 1.00

Eye protection:

Tightly sealed goggles.

9. Physical and technical properties

| Information on basic physical and chemical pro | perties |
|------------------------------------------------|----------------------------------------------|
| General information | |
| Appearance: | |
| Form | Liquid |
| Colour | Blue |
| Odour | Characteristic. |
| pH-value: | 5 - 8 |
| Change in condition | |
| Melting point/freezing point: | < 0 °C |
| Initial boiling point and boiling range: | > 100 °C |
| Flash point : | Does not flash |
| Flammability (solid,gas): | Not applicable. |
| Decomposition temperature: | Not determined. |
| Auto-ignition temperature: | Not determined. |
| Explosive properties: | Product does not present an explosion hazard |
| Explosion limits : | · · · · · · · · · · · · · · · · · · · |
| Lower: | Not determined. |
| Upper: | Not determined. |
| Vapour pressure at 20 °C: | 2,3 kPa |
| Density at 20 °C: | $1,1-1,3 \text{ g/cm}^3$ |
| Relative density: | Not determinded. |
| Vapour density : | Not determined. |
| Evaporation rate: | Not determined. |
| Solubility in/miscibility with water: | Fully miscible. |
| Partition coefficient: n-octanol/water: | <1 |
| Viscosity: | |
| Dynamic at 20 °C: | 5 - 8 mPa.s |
| Kinematic: | Not determined. |

10. Stability and reactivity

- **Reactivity:** stable under recommended storage conditions. Polymerization is initiated by: free radicals, peroxides.
- Chemical stability: stable under normal conditions.
- **Thermal decomposition/conditions to be avoided:** No decomposition if used according to specification.
- **Possibility of hazardous reactions:** Keep away from oxidizing agents, stronkly alkaline and strongly acid materials in order to avoid exothermic reactions.
- Conditions to avoid: No Avoid temperatures above 50 °C.
- **Incompatible materials:** Incompatible with strong acids and bases. Incompatible with oxidizing agents.

11. Toxicological information

Safety Data Sheet

(EC) No 1907/2006/EC article 31 **TEKINJECT AC SOIL**

02-11-2023

Version 1.00

Information on hazard classes as defined in Regulation (EC) No 1272/2008

• Acute toxicity : Harmfull if inhaled

| LD/LC50 values relevant for classication: As supplied | | |
|----------------------------------------------------------|------|--------------------|
| Oral | LD50 | > 5000 mg/kg (Rat) |
| Dermal | LD50 | > 5000 mg/kg (Rat) |

- Primary irritant effect:
- Skin corrosion/irritation : No irritation.
- Serious eye damage/irritation: No irritation.
- **Respiratory or skin sensitization:** Sensitizing to skin.
- CMR effect (carcinogenity, mutagenicity and toxicity for reproductions):
- Germ cell mutagenicity: based on available data, the classification criteria are not met.
- **Carcinogenicity:** based on the available data the classification criteria are not met.
- **Reproductivity toxicity:** based on available data, the classification criteria are not met.
- STOT-single exposure: based on available data, the classification criteria are not met.
- STOT-repeated exposure: based on available data the classification criteria are not met.
- Aspiration hazard: based on available data, the classification criteria are not met.

12. Ecological information

Toxicity

| Aquatic toxicity | |
|------------------|------------------------------------------------|
| As supplied | |
| LC50/96h | >100 mg/l (Danio rerio) |
| EC50/48 h | >100 mg/l (Daphnia magna) |
| IC50/72 h | 1 - 10 mg/l (Pseudokirchneriella subcapitata) |

- Persistence and degradability: No further relevant information available.
- Behaviour in environmental systems: No further relevant information available.
- **Bioaccumulative potential:** No further relevant information available.
- Mobility in soil: No further relevant information available.
- Ecotoxical effects: No further relevant information available.
- Endocrine disrupting properties
- For mor information on endocrine disrupting properties see section 11.
- Additional ecological information: No further relevant information available.
- Results of PBT and vPvB assessments:
 - **PBT:** not applicable.
 - **vPvB:** not applicable.

Other adverse effects: No further relevant information available.

13. Disposal consideration

- Waste treatment methods
- Recommendation :
- Must not be disposed together with household garbage. Do not allow product to reach sewage system.
- Uncleaned packaging:
- Recommendation: Disposal must be made according to official regulations.
- Recommended cleaning agents: water, if necessary together with cleansing agent.
